Subject: MW02 organics data comparison
Table F revised 7 20 2012a.pdf

Fred,

The USGS (Test America) data results for MW02 would be attached as an appendix in our draft document. We would also include USGS (Test America) data in comparison tables to highlight agreement between the various labs. Attached is a table from the draft document comparing organic constituent results for the April 2012 USGS and EPA analyses of samples from MW02 as well as data from earlier EPA sampling events (Oct 2010 and Apr 2011). This is an example of how the data would be used in our document to highlight agreement between labs and reinforce (corroborate) previous results.
